

KASEY VALANCE

©2002 Pate-Meadows Designs, Inc. (Rev. 6/06)

- This fully lined and interlined valance can be adapted to fit any size window. Instructions are for a 42" board mount with a skirted backdrop. However, it can be hung from a rod with rings. The finished length of the valance is approximately 22 inches.
- This valance works best when constructed out of a medium-weight decorative fabric for the face and a medium-weight contrasting fabric for the backdrop and piping.
- The valance is lined in drapery lining with a facing at the top and bottom of the valance. This facing can be out of the face fabric or a contrasting fabric.
- Use a drapery interlining to give the valance the best body and shape. Interlining is a flannel-like cotton fabric that hangs between the face fabric and the lining. It is available in white and natural colors and can be found at most decorative fabric stores and at www.patemeadows.com. It is **not** the same thing as interfacing.
