

## CUFF-TOP PANELS

©2005 Pate-Meadows Designs, Inc. (Rev. 6/06)

- These clever curtains are great to use as decorative side panels. They are non-workable and each side panel covers about 16-18" of space.
- The length of the panels can be adapted to any length.
- With drapery interlining, the curtains hang beautifully with a luxurious look. Interlining is a flannel-like cotton fabric that hangs between the face fabric and the lining. It is available in white and natural colors and can be found at most decorative fabric stores or at [www.patemeadows.com](http://www.patemeadows.com). It is **not** the same thing as interfacing
- The curtains in our photograph are mounted on knobs (available at [www.patemeadows.com](http://www.patemeadows.com)); however, you can also use a decorative rod with rings.

**Note:** It is best not to use a directional fabric for the contrast lining as it will appear upside down when the cuff is folded over.

## MATERIALS

These instructions are for one pair of panels. Each panel is one width (54") wide. The finished width of each panel is approximately 18-20" when installed. The finished length of this pattern is 90" but can be adjusted.

### Fabrics for 90 finished length:

- 6 yards of decorative fabric for face fabric\*
- [5 ½ yards of drapery interlining \(www.patemeadows.com\)](http://www.patemeadows.com)
- [6 yards of lining \(www.patemeadows.com\)](http://www.patemeadows.com)
- ½ yard of contrasting fabric for cuff
- 1 ½ yards for piping and ties (for multiple windows, a total of 1 ½ - 2 yards of fabric for piping & ties is usually sufficient)

### Supplies:

- [10 drapery knobs with a 3-3 ½" projection \(www.patemeadows.com\)](http://www.patemeadows.com)
- [Steam-A-Seam2® - ½" \(www.patemeadows.com\)](http://www.patemeadows.com)
- [5 yards 4/32" cotton piping \(www.patemeadows.com\)](http://www.patemeadows.com)
- [Temporary fabric marker \(www.patemeadows.com\)](http://www.patemeadows.com)
- [1" bias tape maker - optional \(www.patemeadows.com\)](http://www.patemeadows.com)
